**RE: Request for Amendment for Pre-General Report 10/01/2002- 10/16/2002**

Dear Alissa:

Enclosed is the requests amendment for the Pre-General period in 2002.

Attached to it are the requested H3 Schedules which were originally omitted.

You will note that there is a \$0.53 discrepancy between cash on hand at the end of the October Quarterly report reported as \$2680.76 and the beginning cash on hand for the Pre-General report which is reported as \$2680.23. This is due to a suspected error in entering an expenditure for the reimbursement of mileage in the past. While I am not sure why the discrepancy has occurred, I am unable to find errors in past reports which will correct this discrepancy. Please let me know if it will be necessary to correct this error.

As always Heart Pac takes great effort in providing correct information to the FEC and appreciates your patience in addressing errors that do arise. Please call me at 316-655-~~4150~~ with any questions of request regarding this matter.

Best regards,

Robert Noland  
Assistant Treasurer
